Fortnite: Chapter 2 - Battle Royale Parental Controls Guide

Step by step guide

1

Set Parental Controls Launch Fortnite on your platform of choice. Open the menu in the upper right of the screen. Select 'Parental Controls'. You will be asked to confirm the email address linked to the account. If no email address is linked to the account you will be asked to link one. Set a unique six-digit PIN. This PIN will be required to change parental controls in the future, so make sure to set a PIN that is different from other PINs you use and is easy to remember. You can change the PIN from the account settings, but doing so will require the current PIN. You will be able to recover a lost PIN by contacting player support. Set the parental controls that you wish to have enabled or disabled. Use the 'Save' button to save your selection.

Filter mature language In Fortnite Battle Royale, players can text chat with friends in their squad when in the home page. In Fortnite Save The World players can text chat with friends in the lobby, and with any other players in a private or public match. ON: Mature language in text chat will be filtered and replaced with heart symbols. OFF: Mature language can appear in text chat. This option lets you filter mature language in the chat, both that you send and receive from others.

Reporting on Fortnite Gamers can become friends with other gamers on Fortnite. You can choose not to receive friend requests in your settings. If you do become friends with someone on the platform you have three options 'Whisper' which means to talk to the person in private messenger, 'Unfriend' or 'Block'. Users can also report any other player while playing the game. Click on the player and select 'Report'. This will bring you to a feedback form, see below. Users who break the terms and conditions will be banned from the game.
