

Miss Killeen

Who am I?

I am the current class 4 teacher and will teach class 5 next year. I have just bought my first house and I am looking forward to moving in to it over summer.

Likes and interests

In my spare time, I enjoy socialising with my friends, which is something I have missed throughout lockdown. Therefore, a positive is having this to look forward to.

I also enjoy many different types of exercise but swimming and walking are my favourites. I pretty much love all food but chocolate and fruit are my favourite two!

What learning you will do next year...

Next year, we are going to be looking at some new wider curriculum 'topics'. When you first return, we will be spending time recapping over previous learning and supporting you back into school routines. We will spend the first half term establishing our class routines and will produce pieces of art around inspiring picture books.

During the second half of Autumn Term, we will study the history of 'The Vikings'; this is an era we haven't looked at previously. In Spring Term, we will be learning about rivers and the water cycle. In Summer Term, we will learn about the history of Ancient Egypt. Throughout the year, there will be theme weeks where we will focus on other areas of the curriculum, such as DT and music.

Additional comments

I feel extremely lucky to be teaching some of you for another year but will miss those of you that are moving in to a different class (I am sure you will be amazing in your new class). I cannot wait to welcome the new half of our class either. I hope you all have an amazing and restful summer so you are raring to go in September!
